Prof . Dr. Maikel Y. Leyva Vázquez
Presidente de la Asociación Latinoamericana de Ciencias Neutrosóficas

Dear colleague:

We have analyzed your proposal of publishing the special issue **Número Especial sobre la Aplicación de la Neutrosófica en Latinoamérica**. As its title suggests the papers will be written in Spanish. The Editorial Board (EB) evaluated the titles of the papers postulated and pronounced that:

1. The number of papers is adequately large.
2. The number of pages is per paper satisfies the established.
3. The thematic is of interest of the readers of the journal.

Please do the assignment of 2 referees to each paper we will assign one of our staff.

Receive my best regards

Prof. Dr. Sira Allende Alonso
Editor in Chief
